

## A.L.i.C.E.

**Alert, Lockdown, Information, Counter & Evacuate  
Facilitator: Sgt. Chad Stanton, OSUPolice**

### WOOSTER CAMPUS PUBLIC SAFETY

Wooster Campus Public Safety includes OSU Police, Environmental Health and Safety, Emergency Management and BioSecurity for the College of Food Agriculture and Environmental Science. We are located on the Wooster Campus, but support all of the college's staff, facilities, and programming around the state.

**Event: A.L.i.C.E.** stands for Alert, Lockdown, Information, Counter and Evacuate. It is a comprehensive crisis training program designed to give participants common sense insight and response options when encountering an active shooter situation.

**A.L.i.C.E.** offers guidance to faculty, staff and students to help ensure safety when responding to an active shooter situation. The Wooster campus covers large geographic areas and includes agricultural centers and residential buildings as well as traditional academic areas. While these characteristics pose challenges, **A.L.i.C.E.** training can help you prepare to respond to an active shooter event. This session is open to all OSU employees and students.

**Date/Time:** Thursday, October 28 at 1:50 PM - 3:30 PM

**Location:** Wooster Science Building (WSB) 175

**Registration:** [go.osu.edu/woosteralice](http://go.osu.edu/woosteralice) or scan code
