

# Job Posting

The Horticulture Division has two student positions open for this summer.  
24-30 hours per week

## Garden Student Assistant position, R9169

Student gardening assistants will help plant the campus learning gardens, as well as decorative flower bed installations at building entrances, parking lots and entry signs. Gardening assistants will work under the supervision of the Staff Floriculturist and Staff Horticulturist to maintain plantings to the highest level of horticultural standards. These students will cater to each gardens' unique needs as the seasons progress. The students will perform planting, mulching, watering, labeling, weeding, and deadheading; all necessary duties required in maintaining a healthy garden environment. These gardens will serve in the education of horticulture students across all disciplines, along with the enjoyment and education of the general public.
