Application Deadline: March 30th, 2021

JOB SUMMARY

This internship will give the intern an opportunity beyond what an individual employee would see, because it will involve the entire hemp operation from seed to sale.

Report to Kelly Hondros and Courtney Gregory throughout the summer.

Duties would potentially include:

- Help in the actual planting, grow and overall cultivation of hemp (general labor)
- Integrated Pest Management - including scouting, identification, and control
- Testing - soil, pathogen, cannabinoid
- Help in the research of the hemp industry, including weekly updates
- Help create relationships within the hemp farming community and foster those relationships
- Work well in a team setting
- Think creatively!

QUALIFICATIONS

- Must maintain a high level of integrity, personal motivation, and sense of urgency
- Pass a state and federal background check
- An interest in hemp industries
- Hard work ethic and ability to work well on a team
- Ability to communicate and complete tasks on time
